JavaScript	Git/Github	AJAX/JSON		SketchApp	MS. Office Suite
JQuery	API calls	Node/Npm		Wireframing	Corel Draw

EXPERIENCE

2017 - PRESENT
FREELANCE DEVELOPER

- Use Photoshop, Illustrator, and Sketchapp to design powerful modern visual product designs, interfaces and graphics that create feeling and connection to increase the use of product and brand perception.
- Transform pixel perfect designs into hand coded semantic HTML5/CSS3 and Javascript code for websites and also utilizing Twitter Bootstrap and CMS systems like Wordpress.
- Create custom designs, for digital, print and web marketing campaigns, social media promotions and merchandise development while pushing my craft to new frontiers.

2014 - 2017
LEAD PRODUCT DESIGNER
Rolling Art Custom Paint
Tempe, AZ

- One of six qualified suppliers for Polaris Industries supplying support to the OEM manufacturing plant for Victory Motorcycle, Indian Motorcycle and The Parts and Accessories Division.
- Responsibilites included design, iterate, and create prototype marketing samples for each dealer cycle and product line.
- Meet with design team, art directors, stakeholders, marketing directors, to gather research on design trends, sales reports, user studies, and dealer feedback to create in demand designs for each dealer cycle.
- Develop 2D prototypes and renderings into production ready 3D design patterns, logos and production files.
- Developed Standardized Quality Control Measures.

2011 - 2013
GRAPHIC ARTIST/ DESIGNER
Sinthium Inc.
Deer Valley, AZ

- Award Winning high end custom motorcycle paint company for industry leading builders such as Jim Nasi Customs, Trask Industries, and John Shope's Dirty Bird Customs.
- Facilitated the product vision by researching, sketching, prototyping and mocking up designs in photoshop and illustrator.
- Worked with clients, art directors and stakeholders to reiterate designs
- Responsible for executing designs from conception to completion, and ensuring strict quality control of deliverables.
